SAMPLING OF 2013 SAT®/PSAT® POINT INCREASES

The following list shows the point increases of a sampling of students who took one of **Dr. Pace's Comprehensive SAT Seminars** in 2013 and who agreed to have their accomplishments posted. It is important to note that "point increase" measures improvement; it does not indicate scores. The increases listed below include PSAT to SAT, PSAT to PSAT, SAT to PSAT, and SAT to SAT score changes. To keep the comparisons equal, the 3-digit SAT system was used.

This list shines a light on the hard-earned improvements of some of Dr. Pace's remarkable young students who put their trust in her unique, holistic approach to the SAT. Dr. Pace is grateful to have had the honor to work with these students, as well as all of the other fine young people she has taught. For more information, please visit www.drpaceseminars.com.

ERIC SOUTHERLAND - TEMPLE HIGH SCHOOL (TEMPLE, TEXAS)

When Eric was in 4th grade, he and his family flew up to Philadelphia from Texas and attended "Slaying the Dragons of Standardized Tests" plus a week of "Whiz Kids" academics that prepared him for the SAT. He was later selected to take the SAT in 7th grade through Duke University's Talent Identification Program (TIP) which--much like the Johns Hopkins program that is familiar in the Philadelphia area--identifies gifted children and provides resources to nurture the development of exceptionally bright youngsters. Eric found the Dragon Slayer and Whiz Kids programs so helpful that he flew to Philadelphia on his own before entering 9th grade to take Dr. Pace's 25-hour SAT

seminar, and he did the same the following summer. Over the two summer programs, he improved his score by 590 points. Eric is a commended National Merit Scholar, earning a perfect score on Critical Reading. He is also a member of the National Society of High School Scholars. He has competed on the International Level at the Thespian Convention in Theatrical Marketing. He has also won 2nd place in Team Theatrical Design in the Texas UIL competition. Eric is currently a finalist for the McDermott Scholarship at the The University of Texas-Dallas.
